Type	Acrylic water-based water proofer. To use in conjunction with membrane.
Appearance	Low Sheen
Colours	White, Venetian Red, Grey, Black and Terra Cotta.
S G at 23°C	Approx.: 1, 18
Flash point	Non-flammable
Practical spreading rate	The practical spreading rate will vary depending on the porosity and profile of the substrate, as well as the application technique and tools used.

Cautions

Avoid painting during inclement weather or if temperature is below 10°C.

Surface Preparation

Ensure that the surface is properly dry and in sound condition - free from dust, rust, grease, oil, algae, fungus or any loose particles.

Application Details

Mixing Method	Stir thoroughly with a flat paddle
Thinning	Brush or spray
Cleaning	Not recommended
Drying time	Water
Recoating time	± 4 Hours depending on conditions

PRACTICAL TIPS:

1. Apply a maintenance coat every 4-5 years, this will add to the already existing film thickness.
2. Do not apply when rain is expected.
3. Do not under apply product.
4. Always use product in conjunction with a waterproofing membrane.
5. For a long-term waterproofing system, FAST AQUA DUCK should be overcoated with FAST TOPGARD or a good quality roof paint.

Storage & Packaging

Store away from direct sun, heat and severe cold. Packaging: 1ℓ, 5ℓ.

Precautions

Keep out of reach of children.
 Ensure good ventilation during application and drying.
 In case of skin contact, wash with soap and water or a recognised skin cleaner.
 Avoid contact with eyes – In case of contact, rinse eyes immediately with plenty of water and seek medical advice if symptoms persist.
 Harmful if swallowed. Do not induce vomiting. Seek medical attention.
 Refer to Material Safety Data Sheet for complete information.
